

# TIME TOGETHER

## FAMILY WORSHIP

***Family Worship*** is a simple idea that encourages quality, teachable, time with a child. During this time families are encouraged to identify one Sunday each month to worship together as a family, rather than sitting with friends (The more opportunities to worship together the better). This is a great opportunity for a parent to model biblical worship.

### **Suggestions for Implementation:**

- Parents, identify at least one Sunday each month to worship together as a family unit. Inform your children of your plans in advance in order to avoid confusion. Take the opportunity to discuss the reasons for worshipping together as a family before the worship service, and then after the service spend some time discussing the truths that were preached that particular Sunday.
